Family Update 10.5.2020

Dear Friends and Family -

I would like to give a quick update today regarding some really exciting news!

I'm grateful to share we have no new cases of COVID-19 among members or staff to report since our last update.

In addition, we are happy to report the recovery of our member and all staff. The member was moved out of the covid-positive dedicated space today and back to the household, based on guidance from the CDC. In addition, two of the staff have returned to work and one will be returning tomorrow, again based on guidance from the CDC and local public health.

During these times of uncertainty, it is important to celebrate these milestones!

As we are currently still in an outbreak status, based on CMS' guidelines, we will continue to test the members and staff twice/week through the end of this week. We will update you when we know more from our local health department.

Please continue to keep yourself safe when out in the community, as the cases in Wisconsin continue to rise. Wear your masks and keep at least 6' of distance when around others who do not live with you, wash your hands frequently, and avoid crowded areas if at all possible.

Thank you for your continued prayers and support during this time. We are proud to continue to care for your loved ones – we'll get through this together, soon!

A handwritten signature in black ink, appearing to read "Megan".
